

HE'S BACK!

ROBIN TEMPLAR WILLIAMS RETURNS WITH A 3-DAY WORKSHOP

WHEN: FEBRUARY 14-15-16, 2005 from 9:30 am to 4 pm

WHERE: The Morton Arboretum, Thornhill Education Center, Room B

We are thrilled to welcome back Robin for his detail-focused workshop, All Water Features, Great and Small. We're incredibly lucky to be able to offer this intensive professional development opportunity, and grateful for the generous sponsorship of the Morton Arboretum.** Surely this workshop is more economical to attend than flying to England!

With Robin we will explore the in's & out's of water feature design and installation: from simple small bubblers, to large waterfalls, natural swimming ponds, and more. Robin's practical and down to earth explanations make translating what you've learned into practice a doable proposition. You'll also glean insight into how the design movement in Europe addresses issues of ecologically conscious landscape planning.

The price includes the 3-day workshop plus catering (coffee & tea breaks and lunch). Registration is limited to 17 participants, so be sure to register early. No refunds will be given after January 15, 2006. In case of workshop cancellation, a full refund—minus the \$5.00 registration fee—will be issued.

** On February 17, 2005 the Morton Arboretum is offering an additional half-day seminar where Robin will address "Transitions in Garden Design." Use the web to register for this half day extra.
